SUMMARY

Experienced Web and Mobile Developer with over 2 years of expertise in building responsive web applications and high-performance mobile apps. Proficient in front-end and back-end technologies, including JavaScript (React, Node.js), Swift, Kotlin, and Flutter. Adept at collaborating with cross-functional teams to design and implement innovative solutions that enhance user experience and drive business growth. Passionate about clean code, performance optimization, and scalable architecture.

EXPERIENCE

Vosyn

Frontend Developer

August 2024 – Present

Toronto, ON

- Developed and maintained responsive web applications using Angular and Vue.js for diverse clients, increasing overall application performance by 30%.
- Led the migration of a legacy web application to a modern React-based architecture, reducing load times by 25%.
- Collaborated with cross-functional teams to troubleshoot issues and ensure project milestones were met according to Agile standards.
- Integrated third-party APIs to enhance functionality in both web and mobile platforms.

Freelancer

Software/Application Developer

August 2022 - August 2024

Toronto, ON

- Developed full-stack applications, integrating custom solutions that reduced page load times by up to 50%.
- Developed a cross-platform mobile application using Flutter that increased user engagement by 30%.
- Enhanced back-end functionality through SQL Server optimization, ensuring fast and reliable data transactions.
- Built native iOS applications using Swift for high-profile clients in the retail sector.
- Applied Agile methodologies to manage client projects, prioritizing clear communication and regular updates on development progress.

TECHNICAL SKILLS

Programming Languages: JavaScript, HTML, CSS, TypeScript, Python, C, C++, Java, Swift, Kotlin

Frameworks: React, React Native, Flutter, Express.js, Angular, Vue, Django

Database Management: Firebase, SQLite, SQL (PostgreSQL, MySQL), NoSQL (MongoDB)

API Development: RESTful APIs, third-party API integrations, GraphQL

Version Control: Git, GitHub

Cloud Platforms: MS Azure (basic knowledge), Google Cloud

Other Skills: Cross-functional collaboration, problem-solving, code quality assurance, Agile/Scrum methodologies

PROJECTS

Caliber Construction Web Application | React, Node.js, MySQL

- Engineered a construction management application, optimizing project workflows with dynamic UI and seamless RESTful API integration.
- Executed performance evaluations, enhancing application speed and ensuring compliance with industry standards.

LiftMates (Car Pool) Application | React Native, Node.js, Firebase

- Designed and developed a carpooling application, optimizing user interactions through responsive UI and API integration.
- Conducted usability tests, enhancing app usability and aligning with customer expectations.

EDUCATION

George Brown College

Mobile Application Development and Strategy Program

January - 2024 – December 2024

Toronto, ON

Coursework: React Native, JavaScript, Kotlin, Swift, Mobile and Web Development, React, Flutter, UI Development

Conestoga College

Big Data Solution Architecture

January 2023 – August 2023

Kitchener, ON

Gujarat University

M.Sc. in Artificial Intelligence and Machine Learning

June 2020 – July 2022

Ahmedabad, India

Marwadi University

Bachelor of Computer Application

July 2017 – June 2020

Rajkot, India

CERTIFICATES

- Web Development Fundamentals – IBM
- Certified Mobile Application Developer – IBM
- Google Cloud Fundamentals – Core Infrastructure
- Front-End Web Developer Nanodegree – Udacity
- JavaScript Algorithms and Data Structures – freeCodeCamp
