SUMMARY

Entry-Level Full Stack Developer with 2 years of experience in mobile and web development, specializing in React Native, React, and Next.js. Adept at integrating modern APIs and optimizing cloud-based solutions, ready to contribute effectively in a dynamic team environment at a forward-thinking company.

EXPERIENCE

SnapCycle	Jun 2025 – Present
Lead Full Stack / Mobile Developer	Toronto, ON
<ul style="list-style-type: none">Built and optimized cross-platform React Native apps with Firebase, offline sync, and modular architecture.Improved API and authentication flows by shaving 200–300 ms off key responses and reducing build-to-release cycles to a few hours.Created a reusable TypeScript and Redux component system that reduced UI duplication by 40 percent across the app.Increased app stability with better error handling, cloud functions, and Firebase monitoring, cutting crash frequency by 20 percent.Collaborated with designers and backend engineers to deliver secure, scalable features on tight timelines.	
Vosyn	Aug 2024 – Jan 2025
Frontend Developer Intern	Toronto, ON
<ul style="list-style-type: none">Rebuilt responsive UIs in React and Tailwind, improving Lighthouse accessibility and performance scores by 15–25 points.Implemented frontend features and layouts that cut design-to-development time by 30 percent across sprints.Reduced page load time by 300–500 ms through code cleanup, caching, and optimized image delivery.Debugged and stabilized core user flows, lowering UI-related bugs by 25 percent during testing cycles.Assisted senior developers with state management using the Context API and component-level optimization.	
Inferenz	Sep 2021 – Jan 2022
Machine Learning Intern	Ahmedabad, India
<ul style="list-style-type: none">Worked on data preprocessing and model experimentation for small to mid-size ML projects.Improved dataset cleaning speed by 25 percent using automated pipelines.Helped boost model accuracy by 3–5 percent through feature tuning and validation.	

TECHNICAL SKILLS

JavaScript, TypeScript, Kotlin, Swift, Java, C, C++, Python, React Native, React, Next.js, Node.js, SwiftUI, REST APIs, Firebase Auth, Firestore, GitHub Actions, Firebase, AWS, Docker, CI/CD, Agile Scrum, MVVM

PROJECTS

I Love Resumes	Tech: Firestore, React, Node.js, FastAPI
<ul style="list-style-type: none">Improved Firestore architecture and UI flow for a smoother resume-building experience.Reduced API latency by 200–300 ms through indexing and batching.	
Liftmates Carpool App	Tech: React Native, Firebase, Node.js
<ul style="list-style-type: none">Built the core ride-matching and user flow for the carpool experience.Improved login reliability to 99 percent+ with Google and Apple Auth.	
News App	Tech: Kotlin, Jetpack Compose, REST APIs
<ul style="list-style-type: none">Developed a modern news app with MVVM and Jetpack Compose.Delivered API content in ~250 ms for most feeds.Achieved stable 60 FPS rendering even on mid-range phones.	
Personal Finance Tracker	Tech: React, Node.js, MongoDB
<ul style="list-style-type: none">Built a real-time finance dashboard with clean UI and structured data flow.Improved query efficiency by 30 percent using optimized MongoDB indexes.Added forecasting logic that updates calculations in under 150 ms.	

EDUCATION

Mobile Application Development and Strategy Program	January 2024 – December 2024
George Brown College	Toronto, ON, Canada
Big Data Solution Architecture	January 2023 – August 2023
Conestoga College	Kitchener, ON, Canada
M.Sc. in Artificial Intelligence and Machine Learning	June 2020 – July 2022
Gujarat University	Ahmedabad, India
Bachelor of Computer Application	July 2017 – June 2020
Marwadi University	Rajkot, India
